PROJECTS

1/CarGators:

Uses: ReactJS

This web app is a one stop shop for both buying and selling used cars.

Had 3 user roles namely admin, negotiator and client.

2/MergeFlo:

Uses: ReactJS

Mergeflo is the solution for all your Mergers and acquisition issues. The app had extensive control over tasks and could bind collaborators effectively. In short Mergeflo is an advanced project management tool.

3/My Grand Bahama:

Uses: React Native

Mobile App(Android) where the user can access events and rate businesses in the island of Bahama.

4/EduoskusXR App:

Uses: React Native

Mobile App(Android) where the registered student can access and enroll for courses and workshops happening in his/her registered institute. There is also a calendar view that lists all the popular events happening in the institute.

5/FoodiePlanet:

Uses: ReactJS and React Native

Foodieplanet is a food delivery system that includes an admin panel, vendor(Restaurant) dashboard, and user App.

Both admin and restaurant dashboards are implemented using ReactJS and the user app using React Native.

HOBBY PROJECTS

1/Disney+ Hotstar Clone:

Uses: ReactJS and Redux Toolkit

Uses firebase google authentication in the login process. The movie data is stored in cloud firestore, while the global app state is maintained efficiently by Redux Toolkit.

2/Tesla- Website Clone:

Uses: ReactJS and Redux Toolkit

Uses Redux Toolkit to handle different car data and is styled using Styled components along with Material UI.

3/Portfolio Web App:

Uses: NextJS and TailwindCSS

Uses NextJS along with TailwindCSS to showcase a few of my works.
